Summary

Motivated MCA student specializing in AI/ML, with a solid foundation in programming and data-driven development. Experienced in building ML models, chatbots, and Android apps.
Excited to apply my skills to real-world projects. Let's connect and build the future together!

Education

Master of Computer Applications (AIML)

Chandigarh University, Punjab, India
CGPA-8.0   July 2024 – present

Bachelor of Science

Jagarlamudi Kuppuswamy Chowdary College, AP, India
CGPA-8.43   Aug 2019 - Jul 2022

Skills

Java, Python, DSA, HTML, CSS, SQL, Git, AWS, AI, ML, Data Analysis

Soft Skills

Collaboration, Problem-solving, Communication, Time management, Leadership, Result-oriented

Certifications

- Certified Data Analyst
- Machine Learning
- React Js
- Ai & Law
- HackerRank
- Microsofr Azure
- Python
- Data Science
- Blockchain

Research Areas

- AI
- Blockchain

Work Experience

Intern /Accemgrade (ML)   Dec 2024 – Feb 2025

- Designed and deployed machine learning models to support adaptive learning.
- Conducted data preprocessing, feature selection, and model training to enhance student performance analytics.
    Projects:- Image classification, Movie Recommendation System.

Intern /Teachnook(Data Analyst)   Dec 2024 – Jan 2025

- Analyzed structured and unstructured datasets to uncover insights and support data-driven decision making.
- Applied statistical techniques and analytical tools(e.g., Python, Pandas, Matplotlib) to draw actional insights from Tableau, Power BI.
    Projects:- Spam detection, Machine Failure recommendation System.

Focus Edumatics(Online Tutor)   Oct 2022 – Dec 2023

Developed, delivered, and maintained engaging online lessons for diverse learners. Collaborated with students to enhance understanding, provided personalized guidance, and utilized interactive tools to create an effective virtual learning experience.

- Gain experience to teach students who are from 1st class to 12th.
- Excelled as a team member and used to team environment.
- Got a award for the best performance during my time period.

Projects

FarmWise – Precision Farming   2025

- **Tools-** Python, scikit-learn, HTML, CSS
- **Objective**: To enhance the field of agriculture by suggesting crops and pesticides to the farmers according to the soil conditions.
- **Outcome**: Solved the problem of yielding suitable crops according to the soil condition and pesticides.

Classic Snake   2022

- **Tools-** Java, Eclipse, HTML, CSS
- **Objective:** To reimagine a cherished mobile game that has captivated a generation, meticulously bringing its nostalgic essence to desktop platforms for an enriched and expansive experience.
- **Outcome:** Developed a desktop version of the Classic Snake game in Java, featuring core gameplay elements (snake, food, score tracking) and control using a keypad-style interface.
